T-Test for Means, Z-Test for Percentages

Uppercase letters indicate significance at the 95% level.

NC3 - The federal government has committed to protecting 30% of land and water by 2030 to conserve biodiversity. Some Indigenous governments have put forward proposals that help meet these conservation goals. Do you support or oppose a mandate for the BC government to create new protected areas with Indigenous peoples even if that means reducing areas available for mining and forestry?
